

# Smoke-free UQ Policy

## Section 1 - Purpose and Scope

(1) The University of Queensland (UQ) is an internationally recognised leader in health research, education and training, and is committed to matching its best practice education and research in the areas of public health and individual health with best practice policy.

(2) This Policy outlines the key requirements and principles of a smoke free university environment as well as responsibilities and actions required for its implementation and ongoing management.

(3) The Policy applies to:

- a. all UQ property, campuses, sites, buildings, vehicles or other areas owned, controlled or leased by UQ, except where a specific exception has been granted; and
- b. all commercial tenancies operating on UQ owned, controlled or leased premises.

### Exemptions

(4) UQ student residential colleges will continue to be regulated by the respective colleges' smoking policies. This specifically refers to the ten residential colleges situated on the St Lucia campus (2021) - Cromwell College, Duchesne College, Emmanuel College, Grace College, International House, King's College, St John's College, St Leo's College, The Women's College and Union College.

(5) The Red Room situated on St Lucia Campus, and the Lawes Club situated on Gatton Campus, are both managed by the University of Queensland Union (UQU). These establishments respectively hold a commercial special facilities licence and a community club licence, under the [Liquor Act 1992](#). Facilities with these licence types are eligible to provide a Designated Outdoor Smoking Area (DOSA) under the [Tobacco and Other Smoking Products Act 1998](#) (Tobacco Act). These facilities must comply with the requirements for a DOSA under the Tobacco Act, including the placement of signage stating that consumption of food in this area is not permitted.

(6) Other exemptions may be granted on a case-by-case basis by the Director of the Health, Safety and Wellness Division (HSW Division), where a sufficient justification is made and where the exemption will not cause unacceptable exposure to others.

### Context

(7) This Policy supports the Queensland Government approach to eliminate smoking from higher education campuses and aims to eliminate the harmful effects of passive smoking and related discomfort to others.

(8) UQ also has an obligation to meet the primary duty of care requirements of the [Work Health and Safety Act 2011](#) (Qld).
