

Acceptable Behaviour towards Students Procedure

Section 1 - Purpose and Scope

(1) The University acknowledges that a power imbalance will always exist between Leadership, Staff or Contractors and a Student and consequently, as outlined in this Procedure some relationships between Leadership, Staff or Contractors and Students are unacceptable to the University. University Leadership, Staff and Contractors should always maintain Professional Boundaries and not seek to initiate or cultivate relationships with Students.

(2) This Procedure outlines the standards expected of Leadership, Staff and Contractors with respect to Professional Boundaries and Intimate Relationships with Students.

(3) UQ is committed to ensuring that all Students can pursue their education without risks to their health or safety and are treated with dignity, fairness, and respect.

Section 2 - Process and Key Controls

(4) This Procedure operates to define and contextualise the terms of the [Sexual Misconduct and Gender-based Violence Prevention and Response Policy](#), the [Conflict of Interest Policy](#) and the [Staff Code of Conduct Policy](#) regarding Intimate Relationships between Leadership, Staff and Contractor and a Student.

(5) Disclosures made by Leadership, Staff and/or Contractors in accordance with this Procedure are managed through the [Disclosure and Management of Interests Form](#) or the [Disclosure and Management of Interest Conflict of Interest Form \(Casual and Unpaid Staff\)](#) as required.

(6) A failure to comply with this Procedure may amount to Sexual Misconduct or Gender-based Violence and/or be in breach of the [Conflict of Interest Policy](#) and the [Staff Code of Conduct Policy](#).

Section 3 - Key Requirements

(7) Where University Leadership, Staff or Contractors hold Direct Power or Influence in relation to a Student, they must not initiate, cultivate or engage in an Intimate Relationship with the Student. If an Intimate Relationship of this nature exists, whether existing or previous, this must be Disclosed to the University.

(8) All Leadership, Staff and Contractors hold Indirect Power or Influence in relation to a Student. Any Intimate Relationship with a Student, including those established prior to the Leadership, Staff or Contractor-student dynamic, must be Disclosed and an appropriate management plan established.

(9) Leadership, Staff and Contractors must act with awareness of the power and influence dynamic with Students and ensure that Professional Boundaries are maintained and enforced. Crossing a Professional Boundary with a Student commonly results from a blurring of professional and personal roles. These boundaries are essential to fostering a safe, respectful, and equitable learning environment grounded in mutual respect, trust, and academic integrity. Refer to the Acceptable Behaviour toward Students Guideline for more information.

Section 4 - Roles, Responsibilities and Accountabilities
