

Senate Remuneration Policy

Section 1 - Purpose and Scope

- (1) This Policy provides information and guidance on the remuneration of Senate members.
- (2) The Policy applies to members of the University's governing body, the Senate.

Section 2 - Principles and Key Requirements

- (3) Senate members provide a significant contribution to the community through their participation on Senate. Remunerating Senate members acknowledges this contribution and recognises that good corporate governance contributes towards the University's sustained and long-term value.
- (4) The Senate believes that it is important to promote a culture founded in equality and mutual cooperation and to avoid the development, or perception, of a hierarchy or status culture within the Senate membership. Further, all Senate members have the same governance responsibilities, liabilities and obligations, whether official, appointed, or elected.
- (5) Accordingly, the Senate has determined all members (with the exception of the Chancellor, Deputy Chancellor and Committee Chairs) will receive the same fee, irrespective of appointment arrangements.
- (6) While every Senate member's relative contribution is equally valued and recognised, it is acknowledged that both the Chancellor and Deputy Chancellor, as well as Committee Chairs, have increased workloads by virtue of the critical leadership roles they play and additional responsibilities they assume within the Senate and accordingly will receive higher fees.
- (7) Fees will not reflect commercial compensation rates but will be set at levels that reflect the spirit of community service which Senate members bring to their service and wider community expectations.

Section 3 - Fees and Out-of-pocket Expenses

- (8) A simple majority of Senate members, present or represented by proxy at the meeting, is required to amend this Policy and/or introduce or change a Senate remuneration fee structure.
